

# QUIET KIT

Installation  
instructions

## FOR BATHTUB

MULTI-LANGUAGE

Ready to install soundproofing solution

# Kit contents

items	quantity	function
big dampers		reduces vibration and noise from the largest, flattest and most vibration-loaded parts of the object
triangle dampers		removes vibration and noise from corner areas of the object
warmer		retains heat, promotes faster heating of the object, and then keeps it warm longer.
memory foam		effectively absorbs noise due to its porous structure. Elastic and soft material, easy to work with
gloves		helps keep your hands safe and clean

## IMPORTANT SAFETY INFORMATION

Always wear protective gear when installing

Keep away from open flames, sparks or high heat

Watch for sharp foil & film edges — risk of cuts

Use only as intended

Ventilate after installation (temporary mild odour)

Work with pleasure and without haste

# 1

## PREPARATION

Put on protective gloves and clean the surface where the material will be installed

# QUIET KIT

# 2

## INSTALL DAMPERS

Big and triangle

Fit **6** big dampers to the underside of the bathtub bottom and **6** to the sides of the bathtub

Use the triangle dampers to the corners of the bathtub

# 3

## INSTALL THERMAL RETAINERS

apply the warmers to the bottom of the shower tray as a second layer, on top of the big dampers

**KEEP YOUR FEET WARM**

# 4

## TREAT THE SIPHON WITH ABSORBER

Apply the memory foam material to the siphon

**CALM**  
BATH ACOUSTICS

**WARMER**  
BATH BOTTOM

**FINAL RESULT**
