

QUIET **KIT**

Installation
instructions

FOR SINK

MULTI-LANGUAGE

Ready to install soundproofing solution

Kit contents

items	quantity	function
circle damper		this is a special circular element for operation in the most vibrationally loaded areas
triangle dampers		removes vibration and noise from corner areas of the object
local dampers		minimizes residual vibration and noise locally in the area requiring treatment
memory foam		effectively absorbs noise due to its porous structure. Elastic and soft material, easy to work with
gloves		helps keep your hands safe and clean

IMPORTANT SAFETY INFORMATION

Always wear protective gear when installing

Keep away from open flames, sparks or high heat

Watch for sharp foil & film edges — risk of cuts

Use only as intended

Ventilate after installation (temporary mild odour)

Work with pleasure and without haste

- 1** **PREPARATION**
Put on protective gloves and clean the surface where the material will be installed

**QUIET
KIT**

- 2** **INSTALL DAMPERS**
Circle, local and triangle

Fit the circle damper to the underside of the sink bottom

Use the triangle dampers to the corners of the sink

Fix 4 local dampers to the sides of the sink, and 2 to the near the sink drain

- 3** **INSTALL NOISE ABSORBER**
to the bottom of the sink and to the siphon

apply the memory foam to the bottom of the sink as a second layer, on top of the circle damper

QUIET BOTTOM

TREAT THE SIPHON WITH ABSORBER
apply the memory foam material to the siphon

FINAL RESULT

REDUCES
WATER NOISE

BLOKS
DRUM EFFECT
